Alice  
What do we do when there is no cleanup level? These wastes were in containers so I did not clean up and soil or groundwater. I disposed of waste in tanks, drums, etc.

Don't forget to add the Clean-up Levels and Clean-up Level Units for each of the Media Names/Types that you have listed. The Clean-up Level amounts must be greater than zero ("0").

Alice  
I finished CES. Could you check and see that I got everything and it shows up in the report. Watercross Drum will take me a little bit of time.  
Thanks  
Gary Moore

Subject: CES Environmental  
Importance: High

Good Morning Gary:  
I am checking SEMS to see which Removal Actions for FY15 were entered, but they are not on the SCAP14 Report for FY15.  
I see that you entered a Govt Removal Action (RV001) for CES Environmental with a 9/30/15 Actual Completion Date.  
It looks like there are a few items that you forgot to enter so that you can receive credit for the Removal.  
Please see the screen images showing you what is missing. You are missing the Removal Action's Contaminants of Concern and the Response Technology.  
Please remember that when you enter the missing contaminants, you must answer at least one of the questions on the page "Yes".  
Please let me know if you need any assistance.  
Thank You,  
Alice
